6. How many years of experience does Dr. Leena Deshpande have?

Dr. Leena Deshpande possesses 29 years of experience in Pediatrics. Her extensive career spans various medical settings.

7. Who is a Pediatrician?

A pediatrician, also known as a child specialist, is a physician specializing in children's healthcare. Their expertise encompasses physical, behavioral, and mental health, addressing a wide range of conditions from minor ailments to complex disorders. Pediatric care begins at birth.

8. What age range of children do your Paediatricians treat?

Our paediatricians provide care for children from birth through age 18. Infants (0-2 years) may require frequent visits, while well-child checkups are typically annual for children aged 2-5. Annual visits continue until the age of 18.

9. Can a Pediatrician Perform Surgery?

Pediatricians focus on children's health, while pediatric surgeons specialize in surgical procedures. A pediatrician may perform surgery with specialized training, but typically handles non-invasive treatments. Pediatric surgeons, however, perform a range of surgeries, from minor procedures (like

foreign body removal) to complex operations such as cardiac surgery.

10. What does a pediatrician do?

Pediatricians provide comprehensive healthcare for children, encompassing routine checkups and managing various conditions. Their expertise includes procedures such as vaccinations, treatment of minor injuries and dislocations (shoulders, elbows), foreign body removal, fracture management, and circumcision. They also specialize in newborn care and addressing health issues affecting infants and children.
