5. How many years of experience does Dr. Mahesh Janarthanan have?

Dr. Mahesh Janarthanan possesses 30 years of experience in the medical field. His extensive career includes a rich history of service and patient care.

6. Who is a Rheumatologist?

A rheumatologist is a medical specialist, often specializing in internal medicine or pediatrics, who diagnoses and treats musculoskeletal and autoimmune conditions, such as rheumatoid arthritis. Their expertise lies in disorders affecting joints, muscles, and related connective tissues.

7. What conditions are treated by a rheumatologist?

Rheumatologists specialize in diagnosing and treating various musculoskeletal and autoimmune disorders, including rheumatoid arthritis, osteoarthritis, gout, lupus, psoriatic arthritis, tendinitis, spondyloarthropathies, and chronic back pain.

8. What symptoms warrant a rheumatologist consultation?

Rheumatologist consultation is recommended for symptoms such as back pain, joint pain, rashes, joint swelling, itching or dry mouth, recurring fevers, skin bruising, joint or back stiffness. These indicate potential rheumatic diseases requiring specialized care.

9. Is a rheumatologist the same as an orthopedic doctor?

No. Orthopedic doctors specialize in musculoskeletal system issues like bones and joints.

Rheumatologists treat these, plus systemic autoimmune disorders, unexplained fevers, and rashes.

10. Does a rheumatologist treat bone cancer?

No, rheumatologists specialize in non-surgical treatments of joint diseases. Orthopedic oncology surgeons are the specialists for bone cancer treatment.
