Overview

Dr. Nitin Arun Jagasia is a highly experienced medical professional specializing in the Covid Recover Clinic. With two decades of dedicated practice, Dr. Jagasia brings a wealth of knowledge and expertise to his patients in Mumbai, Maharashtra. He holds esteemed qualifications, including MBBS, MRCS, and FRCM, underscoring his commitment to providing the highest standard of care in a challenging and evolving medical landscape.

As a male doctor, Dr. Jagasia is known for his compassionate approach and patient-centered care, making him a trusted physician for those recovering from Covid-19. He is proficient in several languages, including English, Hindi, and Marathi, enabling him to effectively communicate with a diverse patient base and cater to their specific needs.

Operating within the Apollo network, Dr. Jagasia is dedicated to ensuring the well-being of his patients during their recovery phase, focusing on both the physical and emotional aspects of healing. His approach is holistic, emphasizing the importance of understanding each patient's unique journey and providing personalized treatment plans to support their recovery.

Dr. Jagasia's commitment to excellence has established him as a leading figure in the Covid Recovery space. Whether it's managing post-Covid complications or providing guidance on rehabilitation, patients

can rely on Dr. Jagasia for expert care and support every step of the way. His practice is built on a foundation of empathy, experience, and unwavering dedication to helping individuals regain their health and quality of life following the challenges posed by Covid-19.

Experience

- I undertook higher specialist training in Wessex, a region renowned for imparting high quality training and experience in Emergency Medicine. During my rotation I worked at a mixture of University & district general hospitals. Along with achieving the broad spectrum of competencies and skills under the expert guidance I also completed the FCEM examination conducted by the College of Emergency Medicine.
- With the responsibility of co-ordinating the M&M meetings and running the doctors rota I acquired key leadership and communication skills which are essential to be successful as a Lead Clinician.
- Major Trauma Centre, Southampton General hospital, UK - as the Trauma Lead, my responsibilities include ensuring the continuing education of all staff working in ED as well as making regular changes to the operational structure to incorporate the latest updates.
- I represented the department on the Trust's Working group whose mandate is to consider the current trauma service delivery, impact on trauma workforce, education and training; to identify areas to be improved in planning a comprehensive trust-wide trauma service.
- My role as the Clinical Governance lead is to work as a part of the Trust's committee to maintain and continually improve the quality of trauma care which involves review of cases, setting up protocols and publishing guidelines.

Membership

- Fellow of College of Emergency Medicine, London
- Member of Royal College of Surgery, Edinburgh

4. What are Dr. Nitin Jagasia's medical qualifications?

Dr Nitin Jagasia holds MBBS, MRCS, FRCEM, reflecting his comprehensive education in the field of Emergency Medicine.

5. How many years of experience does Dr. Nitin Jagasia have?

Dr. Nitin Jagasia possesses 21 years of experience in emergency and critical care medicine.

6. Who is a General Physician?

A general physician (GP) is a medical doctor specializing in non-surgical adult healthcare. GPs treat various diseases not requiring surgery, encompassing cardiovascular, respiratory, neurological, hematological, endocrine, and gastrointestinal systems. Some GPs may further specialize within these systems.

7. What are the education requirements to become a General Physician?

General physicians, also known as primary care physicians, require a medical degree followed by a three-year residency in primary care. Prerequisites include a science-based bachelor's degree, a minimum GPA, successful completion of medical school, and foundational medical training. A commitment to the residency program is essential.

8. When should I consult a General Physician?

A General Physician (GP) provides primary care for various health concerns. GPs manage non-surgical conditions affecting the cardiovascular, respiratory, musculoskeletal, neurological, gastrointestinal, and endocrine systems. Consult a GP for symptoms related to these systems.

9. Do General Physicians Offer Home Consultations?

General physicians, or family doctors, offer comprehensive healthcare services, including check-ups, immunizations, and treatment for various medical conditions across all age groups. Home consultations are at the physician's discretion; routine check-ups may be available at home.

10. Can a General Physician perform surgery?

No. General physicians specialize in primary care, providing non-surgical treatment for illnesses and injuries. Surgical procedures are performed by general surgeons. Physicians focus on primary care, building long-term patient relationships and utilizing methods such as medication and physical therapy.
