7. Who is a Pediatrician?

A pediatrician, also known as a child specialist, is a physician specializing in children's healthcare. They are trained to address a child's physical, behavioral, and mental well-being, managing illnesses ranging from minor ailments to complex medical conditions. Pediatric care begins at birth.

8. What age range of children do your Paediatricians treat?

Apollo Hospitals' pediatricians provide care for children from birth through age 18. Infants (0-2 years) may require frequent visits, while well-child checkups are typically annual from ages 2-5 and yearly thereafter until age 18. This comprehensive care ensures your child's health and well-being.

9. Can a Pediatrician Perform Surgery?

Pediatricians focus on children's health. While some pediatricians with specialized surgical training can perform procedures, pediatric surgeons are specialists in surgical interventions for children, ranging from minor (e.g., foreign body removal) to complex (e.g., cardiac surgery) operations. Pediatricians typically handle non-surgical treatments and evaluations.
