6. How many years of experience does Dr. Surendranath Shetty B have?

Dr. Surendranath Shetty B possesses 44 years of experience in the medical field. His extensive career showcases significant expertise in orthopedics.

7. Who is an Orthopedist?

An orthopedist is a medical doctor specializing in diagnosing and treating musculoskeletal disorders. They manage conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg and foot pain. Orthopedic care encompasses the skeletal system and related structures.

8. What is the difference between an Orthopedist and an Orthopedic Surgeon?

Orthopedists and orthopedic surgeons are often used interchangeably, however there is a key difference. Orthopedists manage musculoskeletal system conditions, offering pre- and post-surgical care. Orthopedic surgeons provide identical pre- and post-surgical care, but also perform surgeries for conditions such as back pain, disc herniation, bone tumors, carpal tunnel syndrome, arthritis, and other injuries.

9. Does an Orthopedist treat foot and ankle problems?

Yes, orthopedists specialize in musculoskeletal conditions, including foot and ankle issues. They treat various problems such as bunions, ankle sprains, arthritis, and sports injuries. Diagnosis utilizes imaging tests, and treatment methods vary depending on the severity of the condition.

10. Is a doctor referral required to see an Orthopedist?

No referral is always needed to book an appointment with an orthopedist. Appointments can be scheduled directly at a clinic or healthcare center. However, a general physician may conduct preliminary investigations and refer patients to an orthopedist for musculoskeletal system issues requiring specialized examination.
