## Overview

Dr. Vikram Kamath is a distinguished neurologist based in Bangalore, Karnataka, with over 15 years of experience in the field. He specializes in various neurological conditions and is known for his dedication to improving patient outcomes through comprehensive care. Dr. Kamath is fluent in both English and Hindi, enabling him to connect effectively with a diverse patient population. His contributions to neurology are exemplified by his numerous publications, including significant research on functional MR imaging of the hand motor cortex, acute painful peripheral neuropathy, and the complex case of remitting-relapsing subacute sclerosing panencephalitis, among others. Dr. Kamath has also highlighted new adverse effects related to common medications, showcasing his commitment to advancing the understanding of neurological disorders. He has achieved recognition for his exemplary work and was involved in a groundbreaking thesis focused on dysautonomias in spinal cord disorders, which further reflects his expertise and dedication to the field. In addition to his clinical practice, Dr. Kamath is an active member of prestigious organizations such as the Indian Academy of Neurology (IAN), the Neurological Society of India (NSI), and the Bangalore Neurological Society (BNS). His dedication to patient care, coupled with his extensive knowledge and experience, makes Dr. Vikram Kamath a highly regarded neurologist in his community.
