Overview

Dr. Kumar Avijeet Dash is a highly skilled nephrologist based in Bhubaneswar, with a dedicated focus on providing exceptional care to patients with kidney-related conditions. With five years of experience in the field, Dr. Dash has developed a comprehensive understanding of nephrology, allowing him to effectively diagnose and manage a wide range of renal disorders. His educational background is impressive, holding an MBBS degree followed by an MD in Medicine and a DM in Nephrology. This extensive training equips him with the knowledge and expertise necessary to address complex medical issues related to kidney health. At Apollo Hospitals, Bhubaneswar, Dr. Dash is committed to delivering personalized patient care, ensuring that each individual receives the attention and treatment they deserve. He believes in a holistic approach to healthcare, emphasizing the importance of understanding each patient's unique circumstances and health history. Dr. Dash is particularly focused on chronic kidney disease, hypertension, and electrolyte imbalances, and he employs the latest advancements in medical technology and research to enhance patient outcomes. His compassionate demeanor and clear communication style help to foster a trusting relationship with his patients, making them feel comfortable and informed throughout their treatment journey. As a consultant in nephrology at Apollo Hospitals, Dr. Dash is part of a renowned institution that prioritizes patient-centered care and innovative medical practices. His association

with this esteemed hospital allows him to collaborate with a multidisciplinary team of healthcare professionals, ensuring comprehensive care for patients with complex health needs. Dr. Dash is dedicated to not only treating kidney diseases but also educating patients about preventive measures and lifestyle modifications that can improve their overall health. With his expertise and commitment to excellence, Dr. Kumar Avijeet Dash is a valuable asset to the Apollo Hospitals team and a trusted partner in the health and well-being of his patients.
