Overview

Dr. Jyoti Arora is a senior breast radiologist with over 15 years of experience in breast imaging, intervention, and women's cancer diagnostics. At Apollo Athenaa Women's Cancer Centre, she leads the breast imaging division with a patient-centric approach, combining international training with a deep commitment to innovation and accuracy.

Trained in India and the UK, Dr. Arora has held key roles such as Director of Radiology at Medanta and Consultant Radiologist in the NHS. She is nationally recognised for pioneering breast MRI-guided vacuum-assisted biopsies (VABB) and scarless breast lump removals; being the first in India to introduce these procedures.

Dr. Arora combines deep technical expertise with empathetic, woman-centric care. She ensures each imaging experience is personalised and informed by the latest evidence and technology. Her philosophy is simple: early, accurate diagnosis is the first step toward confident, compassionate healing.

Experience

- Breast imaging and image-guided procedures

- MRI-guided and stereotactic breast biopsies
- Scarless removal of benign breast lumps
- Screening and imaging for high-risk women
- Gynecology, oncology, and uro-gynecology imaging
- Advanced breast diagnostics and intervention

Education & Training

- **MBBS** – BJ Medical College, Ahmedabad – 2000
- **DMRE** – Sheth VS Hospital, Ahmedabad – 2002
- **MD Radiology** – Sheth VS Hospital, Ahmedabad – 2003
- **FRCR** – Royal College of Radiology, London – 2004
- **Fellowship in RN Imaging & PET/CT** – Royal United Hospital, Bath, UK – 2007
- **Fellowship in Breast Imaging** – Bristol Royal Infirmary, UK – 2008
- **CCST** – UK, Bristol Royal Infirmary – 2008

Membership

- Associate Editor – *Indian Journal of Radiology & Imaging*
- Reviewer – *Journal of Radiology Case Reports* and *Frontiers in Oncology*
- National Coordinator – IRIA Breast Outreach Programme (2019–2020)

Awards

- President's Appreciation Award – IRIA (2021)
- Times Achiever Award – Rising Star in Radiology & Radio-diagnosis
- First radiologist in India to perform MRI-guided VABB and scarless benign lump removal
- Section Editor – Comprehensive Textbook of Clinical Radiology (Elsevier)

Research and Publication

- Published multiple articles in national and international journals
- Contributor to book chapters in clinical radiology
- Regular organiser of radiology CMEs and national breast imaging conferences
