Overview

Dr. Ayush Garg is a skilled Radiation Oncologist currently practicing at Apollo Hospitals, Lucknow, with over 7 years of experience in the field of cancer care. He holds an MBBS, an MD in Radiation Oncology, and a CCEPC Fellowship in Radiation Oncology (UK), which underscores his advanced training and global perspective in delivering precise and effective radiation treatments. His commitment to clinical excellence ensures that patients receive individualized care using evidence-based protocols and the latest radiation technologies.

Fluent in English and Hindi, Dr. Garg effectively connects with a wide range of patients, fostering a comforting and communicative environment during what is often a difficult treatment process. He specializes in managing various types of cancers through external beam radiation therapy, stereotactic radiosurgery, and other advanced techniques. His approach is thorough and patient-centric—prioritizing safety, quality of life, and optimal clinical outcomes.

Dr. Ayush Garg is recognized for his compassionate demeanor, attention to detail, and multidisciplinary collaboration. He actively engages in continuous learning and professional development to remain updated with global advancements in radiation oncology. His balanced approach—combining clinical expertise with a strong focus on patient support—makes him a trusted name among patients and peers alike in the

oncology community of Lucknow.
