Overview

Dr. Sagar is a dedicated Cardiologist with over 9 years of combined professional and residency experience in leading government and private medical institutions across the globe. Having spent more than 3 years in professional practice and 6 years in intensive residency training, he has gained comprehensive expertise in diagnosing and treating coronary artery disease with precision and care. His strong academic foundation and clinical exposure have enabled him to develop a patient-centered approach that emphasizes accurate diagnosis, advanced treatment strategies, and long-term cardiovascular health management.

Experience

- Clinical fellow in structural interventions at Sapporo Cardiovascular Clinic, Japan. Involved in planning and execution of various structural interventions like TAVI, M-TEER, LAAC, ASD, PFO closure and PDA device closure
- Interventional Cardiologist | Baroda Heart Institute and Research Center
- Resident Cardiologist | Amrita Institute, Kochi, Kerala

- Resident Physician | Government Medical College, Surat, Gujarat
- Undergraduate Student & Resident Intern | SMIMER, Surat, Gujarat

Awards
