Overview

Dr. Amit Sahu, a distinguished Interventional Radiologist based in Mumbai, Maharashtra, boasts over 12 years of extensive experience in the field. He is renowned for his specialization in Neuro, Body, and Peripheral Interventional Radiology procedures. An accomplished medical professional, Dr. Sahu has received prestigious training from notable institutes, including a Fellowship in Interventional Neuroradiology from Seth GS Medical College & KEM Hospital, and advanced training at the renowned Johns Hopkins Hospital in Baltimore, USA. His academic excellence is complemented by various honors, including recognition in Biochemistry, multiple presentations at national and international conferences, and significant contributions as a faculty member at the Indian Society of Vascular & Interventional Radiology. Dr. Sahu is adept in a wide array of interventional techniques, addressing complex medical challenges. His areas of expertise include mechanical thrombectomy for acute ischemic stroke, carotid artery stenting, and embolization procedures for intracranial conditions such as aneurysms and arteriovenous

malformations (AVMs). Additionally, he is proficient in managing portal hypertension, oncology-related interventions such as radiofrequency ablation (RFA) and transarterial chemoembolization (TACE), and vascular conditions including diabetic foot disease and varicose veins through advanced treatment options like endovenous laser treatment (EVLT).

Further, Dr. Sahu is skilled in gastrointestinal interventions, deep vein thrombosis management, and various genitourinary procedures. His commitment to advancing the field is evident through his multiple publications in renowned journals and dedication to patient-centric care. Fluent in both English and Hindi, Dr. Amit Sahu is a trusted consultant in interventional radiology, whose work continues to significantly enhance patient outcomes and set a benchmark in medical excellence.
