He specializes in treating conditions like Pleural

Disease, Respiratory Disorders, Respiratory Tract Infection.

2. Why do patients choose Dr. Aziz K S?

Dr. Aziz K S is a pulmonologist specializing in complex lung surgeries such as Pneumectomy, Bullectomy, and Lobectomy. These procedures are among the primary reasons patients seek his expertise.

3. What is Dr. Aziz K S's specialization?

Dr Aziz K S specializes in Respiratory Medicine. He has expertise in treating conditions such as Pleural Disease, Respiratory Disorders, Respiratory Tract Infection. His key treatments include Pneumonia Treatment, Respiratory Treatment, Chest Disease Treatment.

4. What are Dr. Aziz K S's medical qualifications?

Dr Aziz K S holds MBBS, MD (General Medicine) DM (Pulmonary Medicine), reflecting his comprehensive education in the field of Respiratory Medicine.

5. How many years of experience does Dr. Aziz K S have?

Dr. Aziz K S has 22 years of experience in pulmonology.

6. What is a Pulmonologist?

A pulmonologist is a specialist doctor who diagnoses and treats diseases affecting the respiratory system. This includes the lungs, larynx, pharynx, trachea, bronchi, bronchioles, and related lung tissues. They are experts in chest medicine.

7. What respiratory issues does a Pulmonologist treat?

Pulmonologists treat various respiratory conditions including allergies, cough, bronchitis, tuberculosis, asthma, chronic obstructive pulmonary disease (COPD), and lung cancer. They are specialists in respiratory and lung health.

8. When should I consult a Pulmonologist?

Consult a pulmonologist for persistent cough, shortness of breath, chest pain, hemoptysis (coughing up blood), or hoarseness. Seek expert medical attention if symptoms worsen or last over two weeks. Pulmonary specialists provide comprehensive respiratory care and diagnosis.

9. What tests does a pulmonologist perform during a checkup?

Pulmonologists utilize various diagnostic tests, including chest X-rays, pulmonary function tests, erythrocyte sedimentation rate (ESR) testing, CT scans, and MRIs, along with other specialized investigations to establish an accurate diagnosis. These tests help assess respiratory health and identify potential lung conditions.

10. What is the difference between a Pulmonologist and a Chest Surgeon?

Pulmonologists specialize in pulmonology, a branch of internal medicine, focusing on respiratory diseases. Chest surgeons are surgical specialists who operate on the lungs and related thoracic structures.
