### **4. What are Dr. Jebin Roger S's medical qualifications?**

Dr Jebin Roger S holds MD Pulmonary Medicine (CMC, Vellore), DNB Pulmonary Medicine, Diploma in Allergy and Asthma (CMC, Vellore), reflecting his comprehensive education in the field of Pulmonology.

### **5. How many years of experience does Dr. Jebin Roger S have?**

Dr. Jebin Roger S has 18 years of experience in pulmonology. His extensive medical career spans various locations.

### **6. What is a Pulmonologist?**

A pulmonologist is a physician specializing in the diagnosis and treatment of respiratory diseases. This includes conditions affecting the airways, lungs, and respiratory muscles.

### **7. What respiratory issues do Pulmonologists treat?**

Pulmonologists manage various respiratory conditions including airway inflammation, airway obstruction, alveolar damage, lung diseases from inhalant exposure (dust, chemicals, smoke), genetic lung diseases such as cystic fibrosis, and common conditions like tuberculosis, asthma, and bronchitis. They offer expert respiratory care and treatment.

### **8. When should I see a pulmonologist?**

Consult a pulmonologist for persistent cough, breathing difficulties, coughing up blood or mucus, unexplained weight loss, or shortness of breath during daily activities or exercise. These symptoms may indicate respiratory issues requiring specialized care.

### **9. What tests will a pulmonologist perform during a checkup?**

A pulmonologist's tests vary depending on the patient's condition. These may include a chest X-ray, CT scan, chest ultrasound, pulse oximetry, pulmonary function tests (breathing test), bronchoscopy (airway examination), pleural biopsy, and sleep studies to diagnose sleep disorders. These tests assess lung function and diagnose respiratory issues.

## 10. What is the difference between a pulmonologist and a chest surgeon?

Pulmonologists diagnose and treat respiratory illnesses. For severe lung conditions requiring surgery, such as lung removal or transplant, a referral to a chest surgeon is necessary.
