Dr. Nisith Kumar Mohanty's practice is located at Apollo Hospitals, Bhubaneswar. This hospital offers comprehensive healthcare services and is known for its expert doctors.

### 2. Who is Dr. Nisith Kumar Mohanty?

Dr Nisith Kumar Mohanty is a renowned Nephrologist with over 21 years of experience. He practices in Bhubaneswar at Apollo Hospitals Bhubaneswar. Dr Nisith Kumar Mohanty holds a degree in MBBS ,MD ,DM. He provides treatments including Dialysis, Kidney Transplant, Blood Pressure Management. He specializes in treating conditions like Chronic Kidney Disease (CKD), Kidney Stones, Glomerulonephritis.

### 3. Why do patients choose Dr. Nisith Kumar Mohanty?

Patients seek Dr. Nisith Kumar Mohanty's expertise in Nephrology ICU, Renal Angioplasty & Stenting, and Chronic Kidney Disease (CKD) management. His specialized skills in these areas make him a sought-after nephrologist.

### 4. What is Dr. Nisith Kumar Mohanty's specialization?

Dr Nisith Kumar Mohanty specializes in Nephrology. He has expertise in treating conditions such as Chronic Kidney Disease (CKD), Kidney Stones, Glomerulonephritis. His key treatments include Dialysis, Kidney Transplant, Blood Pressure Management.

## **5. What are Dr. Nisith Kumar Mohanty's medical qualifications?**

Dr Nisith Kumar Mohanty holds MBBS ,MD ,DM, reflecting his comprehensive education in the field of Nephrology.

## **6. How many years of experience does Dr. Nisith Kumar Mohanty have?**

Dr. Nisith Kumar Mohanty has 21 years of experience in nephrology.

## **7. Who is a nephrologist?**

A nephrologist is a kidney specialist, a physician trained to diagnose and treat kidney diseases in patients of all ages. They manage various complications stemming from kidney dysfunction.

## **8. Can a nephrologist treat a urinary tract infection?**

While a general practitioner can typically manage urinary tract infections (UTIs), a nephrologist's expertise is valuable for complex cases. A nephrologist's consultation is recommended if recurring UTIs suggest an underlying kidney condition. They diagnose the root cause and provide specialized treatment, particularly when kidney damage is suspected.

## **9. Does a nephrologist perform kidney transplants?**

Kidney transplant surgery is performed by a specialized surgeon, a urologist or transplant surgeon focusing on kidney conditions. Nephrologists manage pre- and post-operative medical care for transplant patients but do not conduct the surgical procedure.
