Overview

Dr. Ramani Narasimhan is a distinguished Paediatric Orthopaedic Surgeon based in South Delhi, with an impressive experience of 28 years in the field of orthopaedic surgery. He has dedicated his career to the treatment of musculoskeletal disorders in children, ensuring that his young patients receive the highest level of care. His extensive qualifications include an MBBS degree, an MS in Orthopaedic Surgery, and a fellowship in Paediatric Orthopaedic Surgery, thereby equipping him with the expertise needed to handle complex cases.

As an influential figure in his specialty, Dr. Narasimhan has served as the Ex-President of the Paediatric Orthopaedic Society of India. His dedication and contributions to the field have been recognized through various prestigious awards, including the Exemplary Contribution Award in Paediatric Orthopaedics from the Indian Medical Association and the accolade of Best Orthopaedic Resident, awarded the Dr. BN Sinha Gold Medal by Lucknow University.

Fluent in both English and Hindi, Dr. Narasimhan communicates effectively with a diverse patient demographic, making him easily accessible to families from different backgrounds. His practice is focused on delivering compassionate care and innovative treatments for children with orthopaedic issues. Parents looking for a knowledgeable and experienced specialist to treat their child's orthopaedic needs will find Dr.

Narasimhan to be an exceptional choice.

Experience

- Since Nov 2002 Senior Consultant – Pediatric Orthopaedic Surgery at Indraprastha Apollo Hospitals, New Delhi. Part of both “Apollo Center for Advanced Pediatrics” (ACAP) & Dept. of Orthopaedic Surgery.

- Was an active member of the Orthopaedic Relief Team from the Center (New Delhi) to manage the Earthquake victims in Latur, Maharashtra, India, in October 1993.

Frequently Asked Questions

1. Where does Dr. Ramani Narasimhan practice?

Dr. Ramani Narasimhan is a physician at Apollo Hospitals, Delhi. This hospital is a leading healthcare facility offering comprehensive medical services.

2. Who is Dr. Ramani Narasimhan?

Dr Ramani Narasimhan is a renowned Pediatric Orthopaedic Surgeon with over 28 years of experience. He practices in Delhi at Apollo Hospitals Delhi. Dr Ramani Narasimhan holds a degree in

Fellow - Pediatric Orthopaedic Surgery, MS(Orthopaedic Surgery), MBBS. He provides treatments including Pelvis Fracture Treatment Management, Sports Injury Treatment Management, Regenerative Therapy For Joints. He specializes in treating conditions like Carpal Tunnel Syndrome, Sports Injury, Sports Injury Evaluation And Rehabilitation.

3. What is Dr. Ramani Narasimhan's specialization?

Dr Ramani Narasimhan specializes in Pediatric Orthopaedic Surgeon. He has expertise in treating conditions such as Carpal Tunnel Syndrome, Sports Injury, Sports Injury Evaluation And Rehabilitation. His key treatments include Pelvis Fracture Treatment Management, Sports Injury Treatment Management, Regenerative Therapy For Joints.

4. What are Dr. Ramani Narasimhan's medical qualifications?

Dr Ramani Narasimhan holds Fellow - Pediatric Orthopaedic Surgery, MS(Orthopaedic Surgery), MBBS, reflecting his comprehensive education in the field of Pediatric Orthopaedic Surgeon.

5. How many years of experience does Dr. Ramani Narasimhan have?

Dr. Ramani Narasimhan possesses 38 years of experience in the medical field.

6. Who is an Orthopedist?

An orthopedist is a physician specializing in the diagnosis and treatment of musculoskeletal disorders. They address conditions affecting bones, muscles, joints, and ligaments, including arthritis, back pain, sports injuries, and leg/foot pain. Orthopedic care encompasses the skeletal system's comprehensive health.

7. What is the difference between an Orthopedist and an Orthopedic Surgeon?

Orthopedists manage musculoskeletal system conditions, offering pre- and post-surgical care. Orthopedic surgeons provide identical care but also perform surgical procedures for conditions such as back pain, disc herniation, bone tumors, carpal tunnel syndrome, and arthritis.

8. Does an Orthopedist treat foot and ankle problems?

Yes, orthopedists specialize in musculoskeletal conditions, including foot and ankle issues. They treat various problems such as bunions, ankle sprains, arthritis, and sports injuries. Diagnosis often involves imaging tests, and treatment approaches vary depending on the severity.

9. Do I need a referral to see an Orthopedic doctor?

Appointments with orthopedic specialists can be booked directly. Consultations typically occur at the doctor's clinic or a healthcare facility. However, a general physician referral may be necessary following initial evaluation of musculoskeletal issues.

10. Does an Orthopedic Doctor Treat Sports Injuries?

Yes, orthopedic specialists are qualified to treat sports injuries. These injuries, such as ligament tears, sprains, fractures, muscle pulls, and bruises, commonly affect the musculoskeletal system. An orthopedist will conduct a physical examination and may order imaging tests (like X-rays or MRIs) to diagnose the injury's severity before recommending appropriate treatment. Orthopedic care is crucial for effective sports injury management and recovery.
