## Overview

Dr. Sivasankar Jayakumar is a highly experienced Paediatric Surgeon based in Kanchipuram, Tamil Nadu, with over 15 years of dedicated service in the field. As a male healthcare professional, Dr. Jayakumar is well-respected among his peers and patients alike for his expertise and compassionate approach to paediatric care. He holds several prestigious qualifications, including MBBS, MRCS, PGCME, and FEBPS, which underscore his commitment to continual learning and excellence in medical practice.

Fluent in multiple languages, including English, Tamil, Hindi, and Telugu, Dr. Jayakumar is able to communicate effectively with a diverse patient population, ensuring that every child and their family feel comfortable and informed throughout the treatment process. His specialisation in Paediatric Surgery allows him to perform complex surgical procedures with precision and care, making a significant difference in the lives of young patients.

Dr. Jayakumar's practice is integral to CRADLE, a healthcare initiative dedicated to providing comprehensive and child-friendly surgical care. With a passion for improving the health and wellbeing of children, he is committed to not just treating conditions but also educating families about preventive measures and post-operative care.

Whether dealing with minor procedures or major surgeries, parents can trust Dr. Sivasankar Jayakumar to deliver the highest quality of care with empathy and professionalism. His approach focuses on creating a reassuring environment for both children and their families during challenging times, embodying the ideals of modern paediatric healthcare.

## **6. How many years of experience does Dr. Sivasankar Jayakumar have?**

Dr. Sivasankar Jayakumar has 24 years of experience in Pediatric Surgery. His extensive experience contributes to his expertise in the field.

## **7. Who is a General Physician?**

A general physician (GP) is a medical doctor specializing in non-surgical adult healthcare. They treat various diseases not requiring surgery, encompassing conditions affecting the cardiovascular, respiratory, neurological, haematological, endocrine, and gastrointestinal systems. Some GPs may develop sub-specialties within these systems.

## **8. What are the educational requirements to become a General Physician?**

General physicians, also known as primary care physicians, require completion of medical school followed by a three-year residency in primary care. Prerequisites include a science-based bachelor's degree, a minimum GPA, and successful completion of medical school and basic medical training.

## **9. When should I consult a General Physician?**

Consult a general physician for a wide range of non-surgical health concerns. These include cardiovascular, respiratory, musculoskeletal, neurological, gastrointestinal, and endocrine system issues. A GP is your first point of contact for most health problems.

## **10. Do General Physicians Offer Home Consultations?**

General practitioners (GPs) offer primary healthcare services including check-ups, immunizations, and treatment for various medical conditions across all age groups. Home consultation availability varies depending on the individual physician's practice; however, routine check-ups may be offered at home.
