## Overview

Dr. Karthikeyan Yr is a highly skilled neurosurgeon with over nine years of dedicated experience in the field of neurosurgery. Based at Apollo Hospitals, Seshadripuram in Bangalore, he has established himself as a trusted expert in treating a wide range of neurological conditions. Dr. Karthikeyan's educational background is impressive, holding an MBBS degree followed by a Master of Surgery (MS) in General Surgery, and further specializing with a Master of Chirurgiae (MCh) in Neurosurgery. His commitment to advancing his skills is evident through his training in minimally invasive and endoscopic spine surgery, allowing him to offer patients cutting-edge treatment options that promote quicker recovery times and reduced postoperative discomfort. In his practice, Dr. Karthikeyan focuses on providing comprehensive care tailored to the unique needs of each patient. He believes in a patient-centered approach, ensuring that individuals feel heard and understood throughout their treatment journey. His clinical expertise encompasses a variety of neurological disorders, including spinal disorders, brain tumors, and traumatic brain injuries. Dr. Karthikeyan is dedicated to employing the latest surgical techniques and technologies, which not only enhance surgical outcomes but also prioritize patient safety and comfort. His warm demeanor and empathetic nature help to foster a supportive environment, making patients feel at ease as they navigate their healthcare decisions. As a valued member of the Apollo Hospitals, Seshadripuram

team, Dr. Karthikeyan embodies the hospital's commitment to excellence in patient care. His collaborative approach with fellow healthcare professionals ensures that patients receive holistic treatment plans that address both their medical and emotional needs. Dr. Karthikeyan is not only passionate about his work but also actively engages in ongoing education and research, contributing to the advancement of neurosurgery practices. Patients can trust that under his care, they will receive the highest standard of medical attention, guided by a physician who is both knowledgeable and compassionate.
