## Overview

Prof. Dr. Abhay Kumar Sahoo is a distinguished Senior Consultant in Endocrinology and Metabolism at Apollo Hospitals, Bhubaneswar, bringing with him an impressive 18 years of experience in the field. His extensive educational background includes an MBBS from MKCG Medical College, an MD in General Medicine from Banaras Hindu University (BHU), and a DM in Endocrinology & Metabolism from the prestigious All India Institute of Medical Sciences (AIIMS), New Delhi. Additionally, he has earned the Fellowship in the American College of Endocrinology (FACE), underscoring his commitment to staying at the forefront of advancements in endocrinology. Dr. Sahoo specializes in a wide range of endocrine disorders, including diabetes, thyroid diseases, adrenal disorders, and metabolic syndromes. His clinical focus is not only on diagnosing and treating these conditions but also on educating patients about their health, empowering them to take an active role in their treatment plans. He believes in a holistic approach to patient care, where understanding the individual needs and concerns of each patient is paramount. This patient-centered philosophy fosters a supportive environment, allowing for open communication and trust, which are essential for effective treatment outcomes. At Apollo Hospitals, Dr. Sahoo is dedicated to providing the highest standard of care, utilizing the latest medical technologies and evidence-based practices. His association with this esteemed institution reflects his commitment to excellence in

healthcare and his passion for improving the lives of his patients. With a warm demeanor and a wealth of knowledge, Prof. Dr. Abhay Kumar Sahoo is not only a trusted medical professional but also a compassionate partner in the journey towards better health.
