Overview

Dr. Srinivas Rajagopala is a highly respected authority in **Pulmonology, Sleep Medicine, and Lung Transplantation, with more than two decades of distinguished experience**. He began his medical journey at JIPMER, Puducherry and further honed his expertise at PGIMER Chandigarh. His Clinical and research expertise was expanded by international exposure at the Royal Adelaide Hospital, McMaster University, and Toronto General Hospital.

Widely regarded for his commitment to evidence-based care, Dr. Rajagopala is a leading figure in Pulmonology, Sleep medicine and Lung Transplantation. His core interests include interstitial **lung diseases, bronchiectasis, pulmonary hypertension, advanced lung diseases, and lung transplantation**. He is actively working to expand access to lung transplantation in India by championing cost-effective approaches and advancing cutting - edge therapies.

A prolific author, his research has been published in numerous national and international journals, and he also serves as a reviewer for several medical publications.
