Overview

Dr. Kalyani Premchandra is a dual-trained oncologist with a unique background in both **Radiation Oncology** and **Medical Oncology**, bringing a holistic, multidisciplinary approach to cancer care. With a strong foundation in solid and hematological malignancies, she combines her clinical acumen with evidence-based practice to deliver personalized cancer treatment. Dr. Kalyani is currently associated with Apollo Cancer Centre, Bangalore, where she offers her expertise in treating a wide range of cancers including lung, breast, GI, prostate, bone sarcomas, lymphoma, and myeloma. Her areas of special interest include immunotherapy-related adverse events, brachytherapy, and optimizing radiation schedules for metastatic disease. She is also a keen academician with experience in research and presentations at national oncology conferences.

Experience

- Senior Registrar – Medical Oncology
- Apollo Hospitals, Bangalore (May 2024 – Present)
- Senior Resident – Radiation Oncology

- Hassan Medical College (July 2019 – July 2020)

Awards

Dr. Anuradha P is an accomplished researcher in Radiation Oncology, and has been awarded for her prominent contributions to the field. She was awarded for Best paper Award for "Comparison of External Beam Radiotherapy versus Brachytherapy in patients diagnosed with early-stage breast cancer treated with Accelerated Partial Breast Radiotherapy (APBI)" during the Abstract Poster event at FARO in 2018.
