Overview

Dr. Shweta Mutha is an accomplished Radiation Oncologist at Apollo Hospitals, Pune, with over 9 years of specialized experience in treating cancer patients with advanced radiotherapy techniques. She holds an MBBS, MD (Radiation Oncology), DNB (Radiotherapy), and has completed a Fellowship in Stereotactic Radiosurgery, reflecting her expertise in precise and targeted radiation treatments for complex cancers. Her practice includes the management of various malignancies with a focus on minimizing side effects while maximizing treatment effectiveness.

Fluent in English, Hindi, and Marathi, Dr. Mutha prioritizes clear communication with patients and their families, ensuring they understand their treatment plans, procedures, and expected outcomes. Her patient-centered approach emphasizes compassion, support, and education throughout the radiotherapy process, empowering patients to actively participate in their care.

At Apollo, Dr. Mutha utilizes state-of-the-art radiotherapy technology and evidence-based protocols to deliver personalized cancer care. Known for her precision, dedication, and commitment to improving patient outcomes, she collaborates closely with multidisciplinary teams to provide holistic oncology care.

Dr. Shweta Mutha is recognized as a trusted radiation oncologist in Pune, specializing in stereotactic and advanced radiotherapy techniques.
