Overview

Dr. Ayyagari Ramakanth Reddy is a dedicated Internal Medicine and Gastroenterology Specialist at Apollo Hospitals, DRDO, Kanchanbagh, with over 6 years of clinical experience. He holds an MBBS, a DNB in Internal Medicine, and a DNB in Medical Gastroenterology, reflecting his strong foundation and advanced training in managing complex gastrointestinal and systemic conditions. His multilingual abilities in Telugu, Hindi, English, Tamil, and Kannada allow him to connect effectively with patients from varied linguistic backgrounds.

Dr. Ramakanth Reddy specializes in the diagnosis and treatment of a wide range of digestive and liver-related disorders, along with offering comprehensive internal medicine care. His approach is holistic and patient-focused, emphasizing careful assessment, evidence-based interventions, and empathetic communication. He is skilled in managing chronic conditions such as liver diseases, inflammatory bowel disorders, acid reflux, and metabolic syndromes, while also handling acute medical emergencies with confidence and precision.

Recognized for his clinical acumen and compassionate care, Dr. Ayyagari Ramakanth Reddy remains committed to continuous learning and professional development. He stays updated with the latest advances in gastroenterology and internal medicine, ensuring his patients receive modern and effective

treatment options. His commitment to long-term patient wellness and personalized care makes him a trusted name in his specialties.
