## Overview

Dr Kumar Gubbala is a skilled Gynecologic Oncologist with 6 years of experience at Apollo Women's Hospital in Chennai. He holds MBBS and MRCOG qualifications. His specialization involves diagnosing and treating cancers of the female reproductive system, including cervical, ovarian, uterine, and vulvar cancers. He consults patients Monday to Saturday, offering comprehensive oncological care including surgery, chemotherapy, and supportive counseling. Gynecologic Oncology requires surgical precision, multidisciplinary collaboration, and sensitive patient communication. Dr Kumar provides personalized treatment plans tailored to disease stage and patient health status. He is dedicated to advancing cancer care through evidence-based medicine, minimally invasive surgical techniques, and holistic patient support aimed at improving survival and quality of life.
