## Overview

Dr. Kaushal Shah is a skilled Pulmonologist and Critical Care Specialist at Apollo Hospitals, Pune, with over 2 years of experience in managing respiratory and critical care conditions. He holds an MBBS, MD in Pulmonology, and DrNB in Critical Care, reflecting his advanced training and expertise in treating complex lung diseases, acute respiratory conditions, and critically ill patients. His practice includes managing asthma, COPD, interstitial lung diseases, respiratory infections, and advanced ventilatory support for patients in intensive care.

Fluent in English, Hindi, and Marathi, Dr. Shah prioritizes clear communication with patients and their families, helping them understand diagnoses, treatment plans, and preventive strategies. Known for his patient-focused approach, he combines clinical expertise with empathy, ensuring patients feel informed, supported, and confident throughout their care journey.

At Apollo, Dr. Shah leverages state-of-the-art diagnostic tools, evidence-based treatment protocols, and advanced ICU facilities to deliver high-quality, personalized care. He collaborates closely with multidisciplinary teams to provide comprehensive management for both routine and critical respiratory conditions. Dr. Kaushal Shah is recognized as a trusted pulmonologist and critical care specialist in Pune, dedicated to improving patient outcomes and advancing respiratory and critical care medicine.
