Overview

Dr. Samarendra Dash is a dedicated specialist in Radiation Oncology, bringing over 12 years of clinical experience in delivering advanced radiation-based cancer care. He holds a strong academic and research-oriented background, having completed his MBBS, followed by an MD in Radiation Oncology, and a DNB in Clinical Research Oncology, reflecting his commitment to both evidence-based practice and continual academic growth.

As a Consultant in Radiation Oncology, Dr. Dash is experienced in the planning and administration of precise radiotherapy treatments for a wide spectrum of cancers. His expertise includes the use of modern radiation techniques, treatment optimization, and comprehensive patient-centered cancer management. Known for his meticulous approach, compassionate communication, and commitment to improving therapeutic outcomes, he ensures that each patient receives individualized, high-quality cancer care.
