## Overview

## Research and Publication

Dr. Deepti Kakkar is an accomplished Paediatric Cardiac Surgeon with over 12 years of specialized experience in diagnosing and treating complex congenital and acquired heart conditions in infants, children, and adolescents. With rigorous training culminating in a DNB in Cardiothoracic & Vascular Surgery, she possesses advanced expertise in performing delicate paediatric cardiac procedures, including corrective surgeries for congenital heart defects, neonatal heart surgeries, and palliative cardiac interventions.

At Apollo Hospitals International Limited, Ahmedabad, Dr. Kakkar is known for her precision, calm surgical approach, and deep commitment to compassionate care for young patients. She works closely with families to guide them through complex diagnoses, ensuring clarity, comfort, and personalized treatment plans aimed at achieving the best possible outcomes.
