Overview

Dr. Arif Wahab is a highly experienced cardiologist based in South Delhi, Delhi, with 8 years of dedicated practice in the field of cardiology. As a compassionate and skilled physician, he has committed his career to diagnosing, treating, and preventing cardiovascular diseases. Dr. Wahab holds an MD in Medicine along with a DM in Cardiology, showcasing his extensive training and expertise in this critical specialty. His passion for patient care extends beyond mere treatment; he focuses on educating patients about heart health and empowering them to make informed decisions regarding their wellbeing.

Fluent in English, Hindi, and Urdu, Dr. Wahab is able to effectively communicate with a diverse patient population, ensuring that everyone receives personalized care tailored to their individual needs. His approach combines both cutting-edge medical technology and a compassionate touch, making him a preferred choice for patients seeking cardiac care to enhance their quality of life.

As a recognized cardiologist at Apollo Hospitals, Dr. Wahab stays abreast of the latest advancements in cardiology, promising his patients the most effective treatments available. Although he has not listed any specific awards, his dedication and positive patient feedback speak volumes about his reputation in the medical community. Patients can trust Dr. Wahab not just for his medical expertise, but also for his genuine commitment to their heart health and overall well-being.
